**Build Cost:** £587,000

## Quote:

“The new Holcombe pitch is an absolutely fantastic surface to play on. The ball absolutely fizzes across the surface and holds the water really well. It’s a really great pitch and we’re really lucky to have such an international standard pitch here. It’s so much better than the old one.”

*Sam Quek, Holcombe, England and Team GB*

“It’s a real international standard hockey pitch and we’re really grateful to Notts Sport for helping us out and laying such a fantastic turf. The ball just plays really quickly across it and it means that we can play at really high-intensity and keep the standard of our game really high.”

*Emily Maguire, Holcombe, Scotland and Team GB*

“It’s really nice and plays really well. It’s a million times better than the old one. I actually fell on the pitch last season and my whole knee swelled up because the pitch.”

*Steph Elliott, Holcombe, England and Team GB*
